CDX-G3205UV

SiriusXM ready CD Receiver

Hit the road with your favorite tracks. With AOA 2.0 compatibility, get seamless control of your music from your Android device.

- 55 watt x 4 Dynamic Reality Amp¹
- Enhanced smartphone connectivity with AOA 2.0
- Advanced sound with EQ10, EXTRA Bass, and HPF/LPF crossovers
- 2-Zone Dynamic Color Illuminator[®] with Sound Synchronization
- Front AUX and USB for iOs & MSC/MTP USB devices²
- SiriusXM[™] Satellite radio ready⁴
- Works with Pandora[®] for iOS
- MP3/WMA/FLAC music file playback support for USB³
- Intuitive Quick-BrowZer[®] and Jump Mode search features
- Digital Clarity Tuner with RDS
- 2-Volt rear and sub RCA preamp outputs
- Detachable faceplate with LCD display
- Steering wheel remote control input ready⁵
- Convenient wireless remote (RM-X211)

Powerful in-dash amplification¹

The redesigned, internal Dynamic Reality Amp circuitry boasts 47% lower internal resistance compared to conventional receivers, delivering 55 watts x 4 to your interior speakers.¹ This allows you to crank up the volume while maintaining low distortion, low noise levels and smooth frequency response. Your music isn't just louder, its clearer too.

Enhanced smartphone connectivity with AOA 2.0

AOA (Android Open Accessory) allows many Android phones with OS 4.1 and up transfer audio to a car stereo via USB. While connected, use the receiver's controls to play, pause, and skip tracks and charge your device at the same time.

Advanced sound with EQ10, EXTRA Bass, and HPF/LPF crossovers

The new Advanced Sound Engine includes adjustable 10 band equalizer, digital LPF/HPF crossovers and EXTRA Bass that enhances low frequency playback.

2-Zone Dynamic Color Illuminator[®] with Sound Synchronization

Experience up to 35,000 different color variations as they pulse in time to the beat, with the new two-zone Dynamic Color Illuminator. You can also customize your own double line LED display to create the right atmosphere for your drive.

Front AUX and USB for iOs & MSC/MTP USB devices²

Connect control & charge your Walkman[®], iPod[®], iPhone[®], Android[™], Blackberry[®], or other compatible USB device while accessing your digital music files via the front USB input.² You can also view metadata like song title and artist on the front display. The front USB port provides up to 1 amp maximum output for charging your portable devices.

SiriusXM[™] Satellite radio ready⁴

The on-board SiriusXM[™] connector simplifies satellite radio installation by eliminating compatibility issues and providing direct connection to the latest platform of tuners.⁴

Works with Pandora[®] for iOS

Pandora[®] is the leading internet radio service, giving people music they love anytime, anywhere, through personalized radio stations. The receiver provides complete access to your Pandora account using your iPhone[®].

MP3/WMA/FLAC music file playback support for USB³

Multi-format playback lets you play your MP3, WMA or FLAC files from a MSC/MTP compatible USB device.³

Intuitive Quick-BrowZer[®] and Jump Mode search features

Use Quick-BrowZer[®] to find music by artist, album, genre, song or playlist. Use Jump Mode to fast forward through a category in 10% increments to help you find a specific song.

Digital Clarity Tuner with RDS

SONY

The Digital Clarity Tuner delivers industry leading signal to noise ratios, lower interference, better multipath rejection and better stereo separation. The RDS feature displays broadcast information when listening to compatible AM/FM stations.

2-Volt rear and sub RCA preamp outputs

When you're ready to expand your system, the receiver delivers 2 volt RCA pre-amp outputs for external front, rear and subwoofer amplifiers. The adjustable subwoofer level control also lets you dial in the bass when you're ready to pump it up.

Detachable faceplate with LCD display

The easy-to-read LCD display shows source and call information, clock, station ID and track data when playing back digital files from CD, streaming audio or external USB devices. Front auxiliary input lets you connect almost any portable audio device to your car's sound system

Steering wheel control ready input⁵

This receiver is compatible with aftermarket remote control adapters designed to utilize the vehicles existing, primary radio controls directly from the steering wheel.⁵ The 1/8" rear panel mounted remote input jack allows for simple connectivity.

Configurable steering wheel remote control input ready

Retain factory steering wheel controls without an adapter. (RC-SR1 required).

Convenient wireless remote included

Control your receiver with the included wireless card remote (RM-X211).
