

Soundbar  
**Sound+**

### PRODUCT HIGHLIGHTS

---

- 3 Wide Range Tweeters
- 9 Speakers with Dedicated Amps
- High-Res Audio (96kHz/24bit)
- Distortion Cancelling
- Wi-Fi & Bluetooth® Connectivity

Sound+ Soundbars are simply beautiful. Samsung Audio technologies deliver room-filling, home theater sound without the need for a separate subwoofer. Designed with streamlined wires and an elegant easy mount option, Sound+ becomes one with your TV and brings your entire cinematic experience together like never before.

### KEY FEATURES

---

#### LONG EXCURSION TECHNOLOGY

Enjoy truly deep bass with technology that increases the depth of speaker movement to provide big sound.

#### MULTI-SPEAKER CONTROL

Increases the power and depth of bass with control that precisely coordinates the movement of each speaker.

#### DISTORTION CANCELLING

Samsung's proprietary technology delivers deep and detailed bass by predicting sound distortion and automatically tuning the speaker's output before the distortion occurs.

#### WIDE RANGE TWEETER

Hear consistently great sound anywhere in the room with tweeters that cover a much wider frequency range.

#### EASY MOUNT

Enjoy a seamless look with a Soundbar that connects directly to your Samsung TV via a single mounting unit. (Mount sold separately.)

#### ONE CABLE

Samsung's 2017 Easy Mount cable plugs directly into the Soundbar, reducing wire clutter and providing a more streamlined look. (Cable sold with the Easy Mount).

#### SURROUND SOUND EXPANSION

Experience more powerful surround sound with the SWA-9000S Rear Wireless Speaker Kit. (Speaker Kit sold separately).

#### ONE REMOTE COMPATIBLE

Spend less time switching between remote controls. Your 2017 Samsung TV remote now manages many of the Soundbar's functions.

#### 4K PASS-THROUGH

With 4K Pass-Through, a simple HDMI® connection delivers the best in audio and picture quality. Connect any 4K video source like a UHD Blu-ray player, through the Samsung HW-MS650 to your TV for rich sound and 4K picture quality.<sup>1</sup>

#### WIRELESS MUSIC STREAMING

Sound+ can stream music from your phone or tablet. Simply connect to Wi-Fi with the Samsung Multiroom App,<sup>2</sup> or connect with Bluetooth®. Within moments, you'll be playing your favorites in a new way.

#### CALIFORNIA AUDIO LAB

Sound+ was tuned at Samsung's state of the art audio lab in Valencia, California. Home to a team of world class audio engineers with 300 years of combined experience, the facility features one of the world's most advanced audio testing labs. From this cutting edge facility in the heart of the entertainment industry come audio products with perfectly balanced, room-filling sound.
