- True 4K Playback
- UHD Upscaling¹
- HDR²
- Smart TV - 4K Streaming^{1,3}

Samsung's UHD Blu-ray player is simply the best way to experience your favorite movies and shows. With Samsung's UHD Blu-ray player, scenes burst with vivid color, stunning contrast, and deep detail. 4K UHD resolution delivers four times the detail of HD, and with an expanded color spectrum and High Dynamic Range (HDR), you'll experience your favorites in a whole new way.²

KEY FEATURES

4K ULTRA HD

Play 4K Ultra HD movies at 4x the resolution of full 1080p HD,¹ letting you watch your favorite scenes with a level of detail and clarity. Plus, with the UHD Upscaling feature, all your lower definition content will automatically refine to near UHD, giving you a crystal clear picture.

HDR

HDR allows for a greater range of color contrast and brightness, enhancing details. The player recognizes HDR content and automatically optimizes settings, so you see content at its best – every time.²

WIDER COLOR RANGE

See up to 2x the color range of a non-UHD Blu-ray player.

SMART HUB

Turn your TV into the ultimate home entertainment hub. Seamlessly access your favorite apps, including 4K streaming apps, content, and sports with Samsung Smart Hub[®].^{1,3}

UNIVERSAL DISC PLAYER

Play all your music CDs, DVDs, and Blu-ray discs on one device.

ONEREMOTE™ COMPATIBLE

Control most functions of the Blu-ray player using most 2017 Samsung UHD TV remotes, so there's one less remote to get lost.

DOLBY® TRUE HD

Enjoy near studio-quality HD audio with your home entertainment system.

DOLBY® ATMOS

With support for Dolby Atmos, you'll experience moving audio that flows around and above you with breathtaking realism.⁴

DTS HD MASTER AUDIO

Enjoy the ultimate in digital sound quality on your favorite movies, TV shows, and streaming content.

HDMI®

Enjoy your favorite movies, shows, and sports with high quality audio. The HDMI[®] connection transmits digital video and audio over a single cable, delivering a superior entertainment experience.
